## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 18-34 are rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Patent no. 5,161,751 to Bolcavage.

Bolcavage discloses a long-distance casting spool for fishing reels, with a spool body comprising a spool base and limit flanges on both sides, where the limit flange pointing in the run-off direction is provided with a radially outer spool lip, via which a fishing line that can be wound up in the circumferential winding direction perpendicular to the spool axis can run off in the run-off direction roughly parallel to the spool axis, characterized in that the spool lip displays a number of retaining fins 17, distributed evenly over the circumference, in that the base end of each retaining fin is permanently connected to the spool body, in that the free ends of the retaining fins extend obliquely in the direction opposite the winding direction, and in that the retaining fins have a radially outer, longitudinal side designed as a fin lip.
